Public Accounting Standards of Chartered Professional Accountants of Ontario

Preamble and History

The following sets out the standards (the “Standards”) developed by Chartered Professional Accountants of Ontario (“CPA Ontario”) pursuant to section 19 of the *Public Accounting Act, 2004* (the “Act”) as the minimum standards that CPA Ontario shall meet when licensing and governing the activities of its members as public accountants.

The Standards were first established by The Public Accountants Council for the Province of Ontario (“PAC”) in 2006 to be no less rigorous than the internationally recognized standards under the *Public Accountancy Act* (which has since been repealed) as they existed on June 9, 2004. The Standards were subsequently updated by PAC to address changes to the accounting profession, including the amalgamation of the three legacy accounting bodies (The Institute of Chartered Accountants of Ontario, The Certified General Accountants Association of Ontario and the Certified Management Accountants of Ontario) into CPA Ontario on May 17, 2017. On April 30, 2021, PAC was dissolved and CPA Ontario assumed oversight of public accounting in Ontario. As required by the Act, these Standards reflect the public interest in the delivery of superior-quality public accounting services and are no less rigorous the standards as they existed immediately before CPA Ontario assumed oversight of public accounting from PAC.

8 Mandatory post-licensing public accounting experience and continuing professional development

- (1) CPA Ontario shall provide that an individual licensee shall not be eligible to renew a licence, if, within the immediate past five years, the individual licensee has not engaged in the practice of public accounting in a substantive way. Standard 15, Section (1) sets out the requirements respecting the issuance of a new licence to such a member.

If an input-based approach is followed each licensee shall:

- (a) complete at least 120 hours of relevant professional development activity in each rolling three-year period, of which 60 hours shall be verifiable; and

Such consequences shall include referral to the disciplinary process of CPA Ontario and, where circumstances warrant, suspension or revocation of the licence to practise public accounting.
- (6) The mandatory continuing professional development requirements that CPA Ontario establishes and maintains for licensees may permit each individual licensee to determine whether the content of the activity contributes to their own personal professional development, but the licensee must be required to base such determination on ensuring that the activity:
 - (a) is quantifiable, meaning it must be specifically identifiable and be able to be expressed in terms of a specific time requirement;
 - (b) is directly related to the competencies needed to practise public accounting;

- (c) is relevant to the member's current professional needs and/or longer term career interests as a public accountant; and
 - (d) contains significant intellectual or practical content.
- (7) At least 50 per cent of the annual and periodic continuing professional development requirements for the input-based approach must be verifiable, meaning that the learning can be objectively verified by a competent source.
- (8) The annual continuing professional development requirements for an individual licensee may, at the discretion of CPA Ontario, be reduced or exempted during periods of absence from the practice of public accounting due to parental leave, medical or compassionate circumstances where:
 - (a) CPA Ontario is satisfied that the individual licensee otherwise has the required capabilities, competence and current skills to provide public accounting services; and
 - (b) CPA Ontario records its reasons for doing so.

- (1) CPA Ontario shall require all licensees engaged in the practice of public accounting, or where the licensee practises public accounting through a partnership, CPA Ontario shall require the partnership, to be subject to a system of mandatory, cyclical practice inspection that may include on-site or remote inspections, or due to the size of the practice, desk inspections, by CPA Ontario to ensure maintenance of an appropriate level of professional standards.

 - (b) involve the testing of quality control procedures;
 - (c) involve the review of current auditing and review engagement files and current files for compilation services;
 - (d) contain sufficient procedures to ensure careful assessment of the nature of the types of engagements and the types of clients of the licensee and to determine key areas of risk in respect of each;
 - (e) retain the services of inspectors having senior experience in public accounting who are independent of the particular licensee or partnership subject to inspection;

- (f) provide the practice inspection system, through enactment of by-laws or regulations, with the power to:
 - (i) compel a licensee or partnership to produce working paper files, books, documents or other materials in paper or electronic form, provided that only documents and information that are compellable by law are producible (e.g. documents and information subject to legal privilege of the licensee, partnership or the licensee's or partnership's client are not producible, unless privilege is waived by the licensee, partnership or the client, respectively); and
 - (ii) make complaints of professional misconduct where warranted, including in situations where the licensee or partnership fails to co-operate in the inspection of the practice;

- (4) The practice inspection system shall be based on a selection of licensees and where applicable, partnerships, within a cycle of inspection that shall not exceed three years.

10 Generally accepted accounting principles and generally accepted assurance standards

CPA Ontario shall require every licensee or partnership to use the generally accepted accounting principles and generally accepted assurance standards set out in the *CPA Canada Handbook – Accounting*, the *CPA Canada Public Sector Accounting Handbook* and the *CPA Canada Handbook – Assurance* as the same are amended from time to time, in accordance with the generally accepted standards of practice of the public accounting profession.

11 Rules of professional conduct

 - (f) a licensee or student has a duty of confidentiality in respect of the affairs of any client or employer (or former client or former employer) and shall not disclose, without proper cause, any information obtained in the course of their duties, nor shall they in any way exploit such information for personal advantage;

 - (j) a licensee associated in the practice of public accounting with any person who is not a licensee under the Act shall be responsible to CPA Ontario for any failure of such person, in respect of such practice, to abide by the rules of professional conduct, and the rules of professional conduct of CPA Ontario shall specify that the rules are deemed to apply to such person as if he or she were a licensee of CPA Ontario;
 - (k) a licensee must be required to establish, maintain and uphold policies and procedures designed to ensure that:
